The Fleet Management Experts

Custom Fleet is a provider of tailor made solutions for fleet management and leasing. We'll analyse your needs and identify opportunities to save money, minimise risk, and streamline time-consuming fleet administration. Servicing large and small fleets, passenger or heavy commercial vehicles, Custom Fleet can customise a solution for your fleet.

Commitment to quality

Whatever they're doing, our people believe in doing their best, especially when it comes to meeting our customers' needs. The quality shows in the way we apply our expertise to creating precise solutions for your requirements. In this way we can offer competitive, innovative services tailored to meet your expectations. Custom Fleet can help you optimise fleet usage and minimise fleet costs. This is our area of expertise, it is what we do best.

Getting your measure

When you invite us to review your fleet requirements, we use a consultative approach to find the ideal services to meet your needs. We'll then provide you with detailed suggestions for the best solution, including:

- any savings we have found through alternative Fleet Management and Leasing options;
- options to minimise financial risk;
- analysis of current fleet needs and market changes;
- the features and benefits of our Fleet Management products and reporting systems;
- opportunities to streamline fleet administration through online functionality;
- full costs, criteria and assumptions.

Measurable results

To ensure we deliver the best possible service, Custom Fleet can work with you to set clear, measurable Key Performance Indicators (KPI's).

Flexible services

Business today changes rapidly. We're committed to constantly developing new products to suit changing customer needs. We recognise every business is different and so maintain a flexible range of products and services to tailor the right solution for your business.
