

Managing your fleet just became much easier. Fleet Office has everything you need in one easy-to-use online system.

This intuitive online portal has been developed using our key learnings from managing over 90,000 vehicles across Australia and New Zealand.

Fleet Office will make your job easier by putting four helpful applications at your fingertips, making quoting, ordering, managing and analysis simpler and faster. You can customise your Fleet Office dashboard so it shows only the information that is important to you, for example, fuel usage, overdue services, and individual budgeting of each vehicle.

Harness the power of the data that is collected from each vehicle by tailoring your reports to suit your needs. This real-time data will give you a thorough overview of your fleet and help you make informed decisions regarding your fleet's operations.

Fleet Office has been developed as part of our ongoing commitment to improving our customers' efficiencies.

Fleet Office

Simple, smart, and fast fleet management

Simple to use

It's easy to navigate, to generate a quote, order online and manage compliance, safety and more. It puts time back in your day for other important matters.

Real-time information

The crucial data collected from each vehicle is visible in real time when you log into your Fleet Office dashboard, where you see only the information that you've chosen to see.

Helpful insights

Customised dashboard view and reports help you make better decisions, manage costs and improve fleet efficiency. Knowledge is power.

- User friendly
- Save time – increase efficiencies
- Customised reporting at your fingertips
